

## Quick Reference Guide

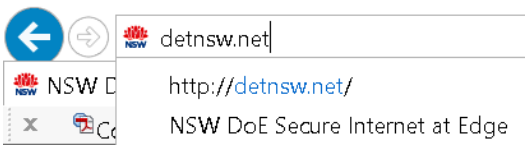

### How to log onto the Secured Internet Edge service in schools with **BYO and SCHOOL-OWNED NON-WINDOWS DEVICES**

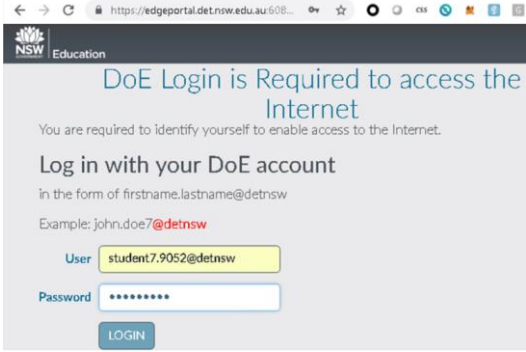

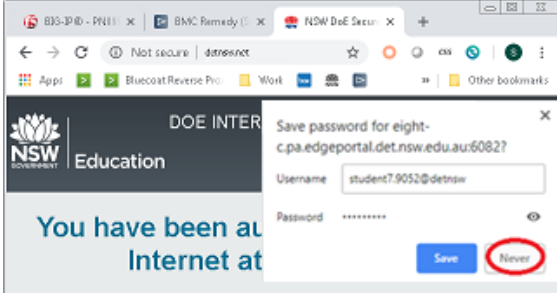

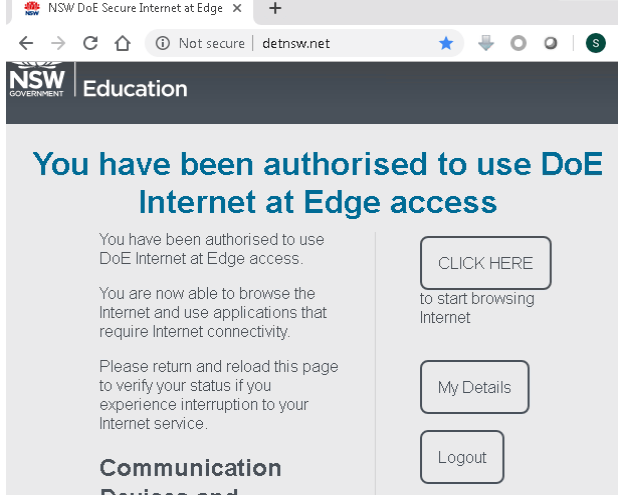

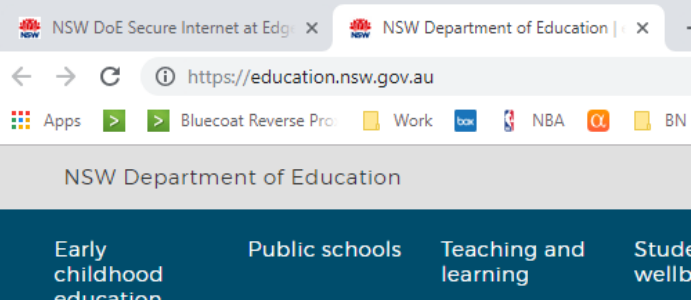

#### Description

The Department of Education is introducing a new internet service at schools. It's an initiative to meet future demands by increasing internet speed and helping to protect schools from cyber threats.

#### How will this affect you?

The only thing that will change is the way you connect to the internet through the login process. For those of you who use your own devices (BYODs, i.e. not owned by the school), or school-owned non-Windows devices, including Apple Macs, iPads, Chromebooks and Androids, please follow the instructions below.

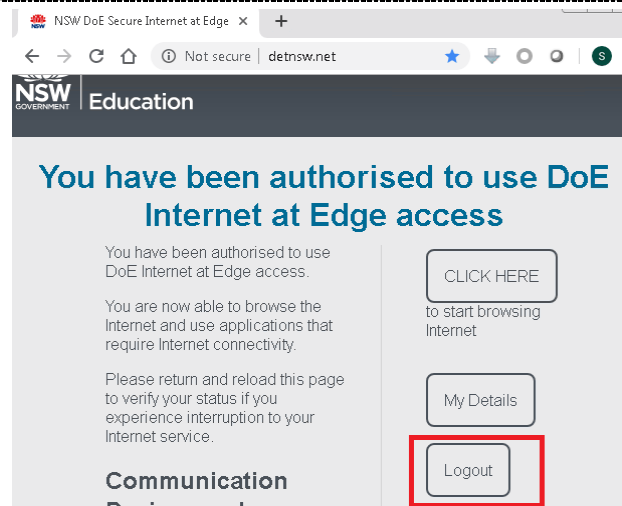

INSTRUCTIONS	SCREENSHOT   CLARIFICATION
<p>To connect to the internet, launch a web browser and go to <b>detnsw.net</b></p> <p><b>Bookmark <a href="http://detnsw.net">detnsw.net</a> in your browser or set up a shortcut on your desktop as it will be used every day to login and logout of the internet).</b></p> <p><b>Note about all Apple devices (iPads, Macs and iPhones) after cutover to Secured Internet at Edge:</b></p> <ul style="list-style-type: none"> <li>• <b>Reboot device (or turn flight mode ON, wait 30 seconds, turn flight mode OFF).</b></li> <li>• Clear your history and cookies, go to <a href="#">Settings &gt; Safari, and tap Clear History and Website Data</a>. Clearing your history, cookies, and browsing data from Safari won't change your AutoFill information.</li> </ul>	 <p>The screenshot shows a web browser window with the address bar containing 'detnsw.net'. Below the address bar, the page title is 'NSW DoE Secure Internet at Edge'. The browser's tab bar shows a single tab titled 'NSW DoE Secure Internet at Edge'.</p>

INSTRUCTIONS	SCREENSHOT   CLARIFICATION
<p>Make sure you use the same username format as: <a href="mailto:firstname.lastname@detnsw">firstname.lastname@detnsw</a></p> <p>Click <b>Sign in</b>.</p>	
<p><b>Note:</b> On a shared device, never save your password. The next user may pretend to be you!</p>	
<p>If your login details are correct, you will be redirected to a landing page.</p> <p>Then <b>Click here</b> or click your bookmark to start browsing internet.</p>	
<p>Browse the internet and use your applications as usual.</p>	

## INSTRUCTIONS

If you are using a shared device, remember to go to **detnsw.net** and logout (or the next user may pretend to be you)

## SCREENSHOT | CLARIFICATION

Close your browser to finish logout process:

**Windows:** Click the “X” in the top right corner of the browser window or press Alt-F4.

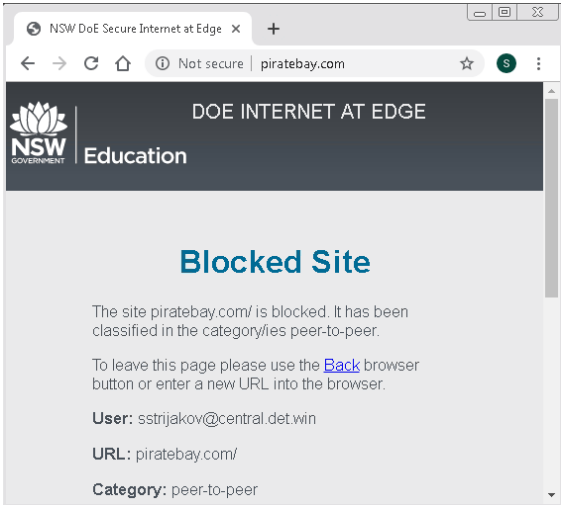

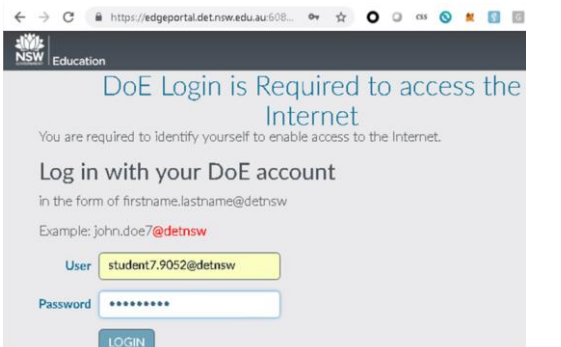

**iPad/iPhones:** Double tap the home button, swipe the browser window off the screen.

**Android:** Tap the **Recents** (square) button, swipe the browser window off the screen.

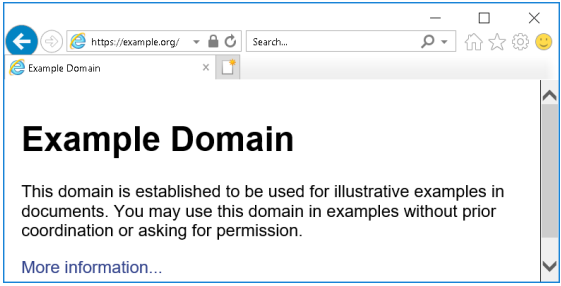

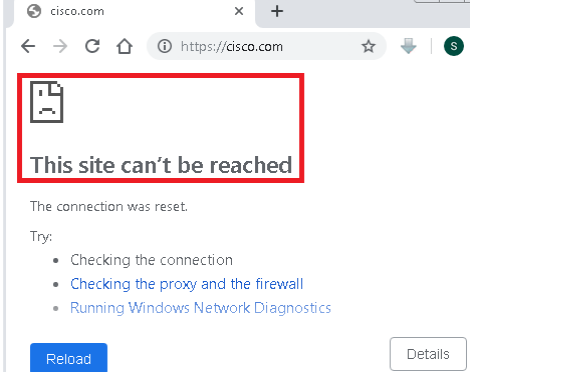

**MACs:** Press Option, Command, and Esc (Escape) keys together; select Safari and click **Force Quit**.

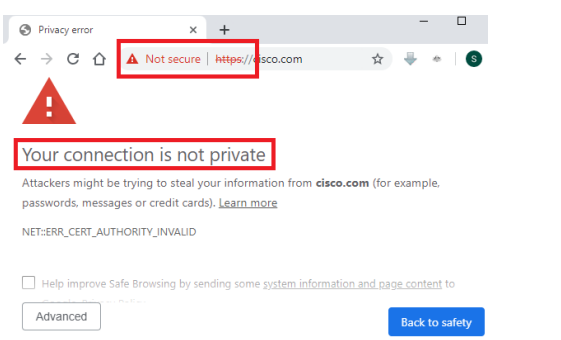

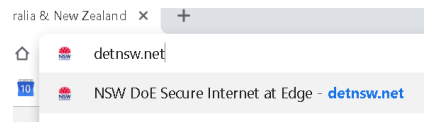

**(School-managed and BYOD) Chromebooks:** close the browser (Click the “X” in the top right corner of the browser window) and sign out from Chromebook (At the bottom right, select the time, click Sign out). Both these actions must occur else Chromebook will retain your ID for the firewall

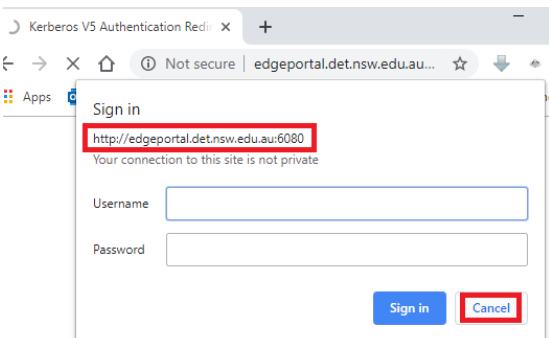

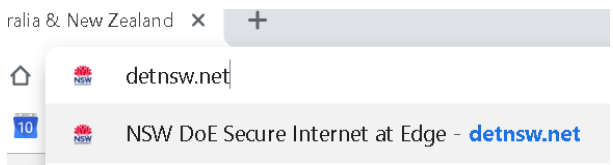

If you navigate to an unsecured (HTTP) internet site, you may see one of the following results:

<p>Site contents:</p>  <p>The screenshot shows a browser window with the address bar at 'example.org'. The page content includes the heading 'Example Domain' and a paragraph stating: 'This domain is established to be used for illustrative examples in documents. You may use this domain in examples without prior coordination or asking for permission. More information...'</p>	<p>You are already authenticated to the Internet at the Edge and authorised to view the page.</p>	<p>Enjoy your browsing 😊</p>
<p>Blocked site alert:</p>  <p>The screenshot shows a 'Blocked Site' alert from NSW DoE. The header reads 'DOE INTERNET AT EDGE Education'. The main message is 'Blocked Site'. Below it, it states: 'The site piratebay.com/ is blocked. It has been classified in the category/ies peer-to-peer. To leave this page please use the Back browser button or enter a new URL into the browser. User: sstrijakov@central.det.win URL: piratebay.com/ Category: peer-to-peer'</p>	<p>You are authenticated to the Internet at the Edge but NOT authorised to view the site.</p>	<p>If you believe you should have access to this page, let your teacher know.</p>
<p>Internet at Edge login page:</p>  <p>The screenshot shows the login page for the Internet at Edge. The heading is 'DoE Login is Required to access the Internet'. It asks the user to log in with their DoE account in the form of 'firstname.lastname@detnsw'. An example is given: 'john.doe7@detnsw'. There are input fields for 'User' (containing 'student7.9052@detnsw') and 'Password', and a 'LOGIN' button.</p>	<p>You are NOT authenticated to the Internet at the Edge.</p> <p><i>(Note: Bookmark <a href="https://detnsw.net">detnsw.net</a> in your Browser or set up a Shortcut on your desktop as it will be used every day to login and logout of the internet)</i></p>	<p>Login with your DoE account.</p> <p>Make sure you use the same username format as: <a href="mailto:firstname.lastname@detnsw">firstname.lastname@detnsw</a></p> <p>Click <b>Login</b>.</p>

If you navigate to a secured (HTTPS) internet site, you may see one of the following results:

<p>Site contents:</p> 	<p>You are already authenticated to the Internet at the Edge and authorised to view the page.</p>	<p>Enjoy your browsing 😊</p>
<p>This site can't be reached:</p> 	<p>You are authenticated to the Internet at the Edge but NOT authorised to view the page.</p> <p>Test http://... version of the URL to be sure</p>	<p>If you believe you should have access to this page, let your teacher know.</p> <p>This also may mean your network connection is not working, check if the sites that you have access to are working.</p>

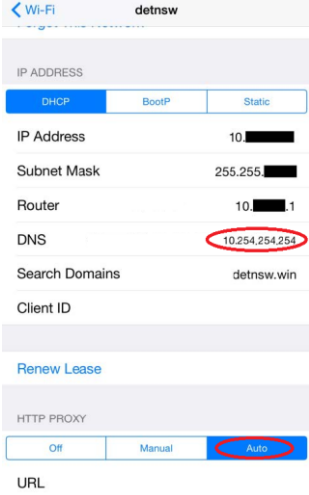

<p>“Your connection is not private” or “Your connection is not secure” certificate warning:</p> 	<p>You are NOT authenticated to the Internet at the Edge.</p> <p><i>(Note: Bookmark <a href="https://detnsw.net">detnsw.net</a> in your Browser or set up a Shortcut on your desktop as it will be used every day to login and logout of the internet)</i></p>	<p><b>Do NOT click “Advanced” and accept the certificate.</b></p> <p>Navigate to <b>detnsw.net</b> (or go to <b>Bookmark or Shortcut</b>) to authenticate/login to Internet at the Edge.</p> 
---	--	--

<p>If you come across this prompt, press cancel and navigate to <b>detnsw.net</b> or Bookmark/Shortcut to authenticate your Internet at the Edge connection:</p>  
---

# SETTING UP NEW PERSONAL BYODs:

## Apple iOS, MAC, Chromebooks and androids

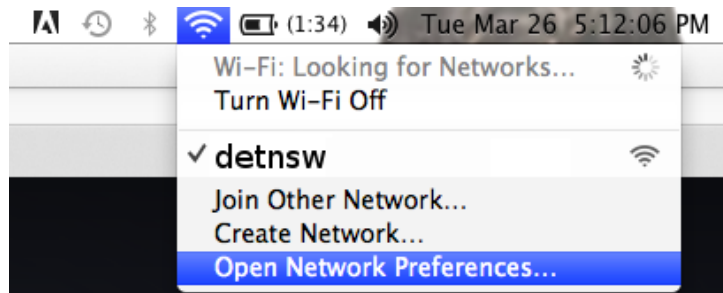

No changes are required to existing BYODs that were setup to connect to DoE network before.  
 When setting up new BYOD devices, verify that settings are consistent with the below instructions.

INSTRUCTIONS	SCREENSHOT   CLARIFICATION
<p><b>Apple iOS devices</b></p> <p>Go to settings.                      Select Wi-Fi.                      Tap <b>detnsw</b></p>	
<p>Scroll down and verify settings are as shown.</p>	
<p><b>Reset Device</b></p> <p>When the school changes to Secured Edge solution, the cached previous configuration may prevent Apple iOS device from connecting to Internet.</p> <p><b>To reset the cached previous configuration, Apple devices (iPads, Macs and iPhones) need to be rebooted (or turn Flight Mode ON, wait 30 seconds, turn Flight mode OFF).</b></p>	

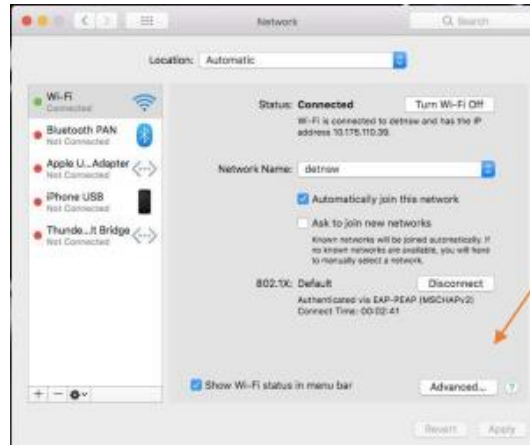

## MAC devices

Your connection to detnsw.net landing page may not work from older versions of Safari. If you can navigate to detnsw.net using Chrome but cannot navigate to detnsw.net using Safari, please consider upgrading Safari to at least version 12.0.1.

Select **Open Network Preferences** from the Wi-Fi button.

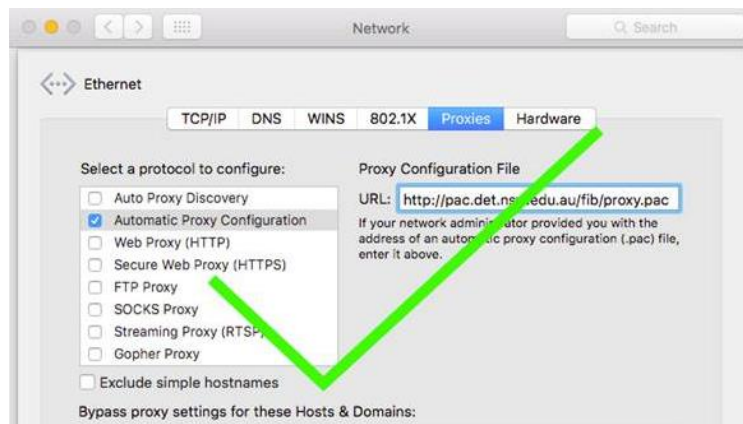

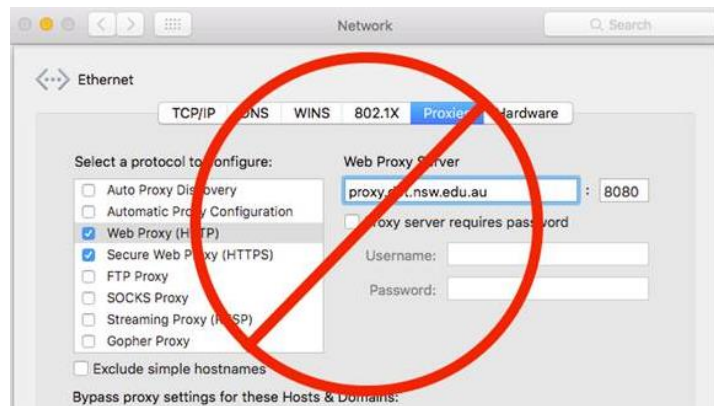

Select **Advanced**.

Select the **Proxies** tab.

Verify the settings are as shown.

Click **OK**.

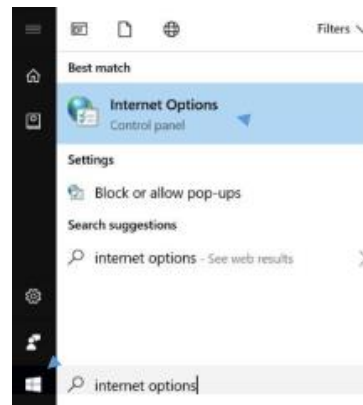

## Windows devices

Click on the Start button on the bottom left corner.

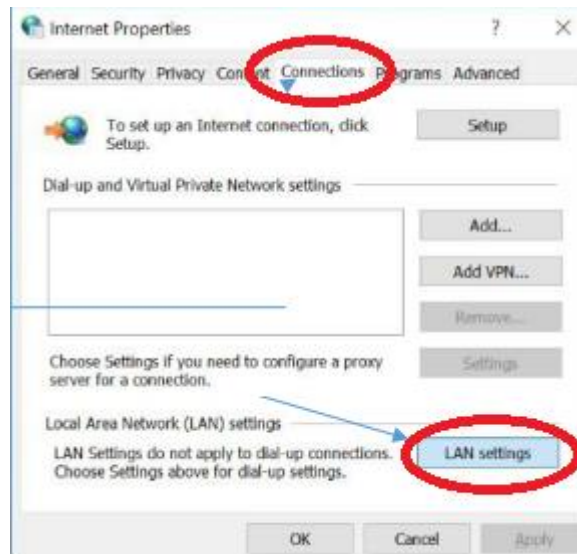

Type **Internet options**.

Click and open **Internet options**.

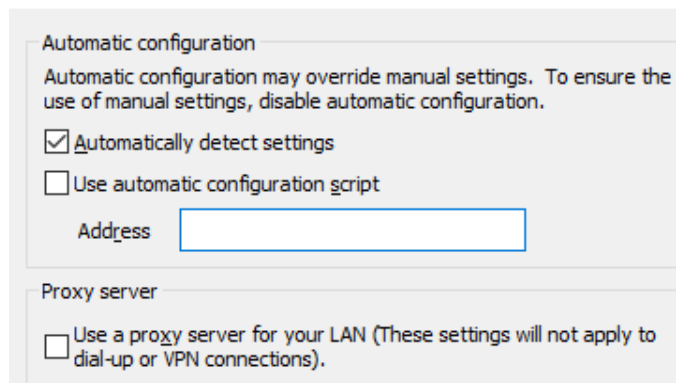

Click **Connections** on the top bar.

Click **LAN settings**.

Verify the settings are as shown.

### Local Area Network (LAN) Settings

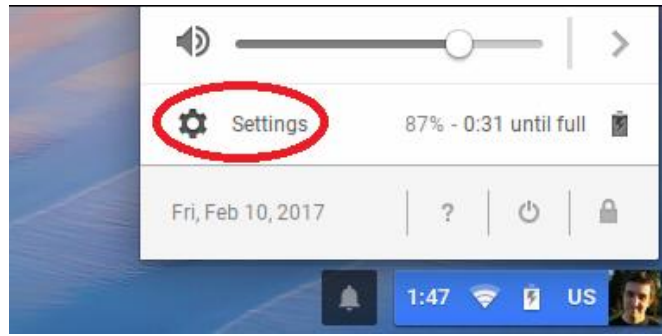

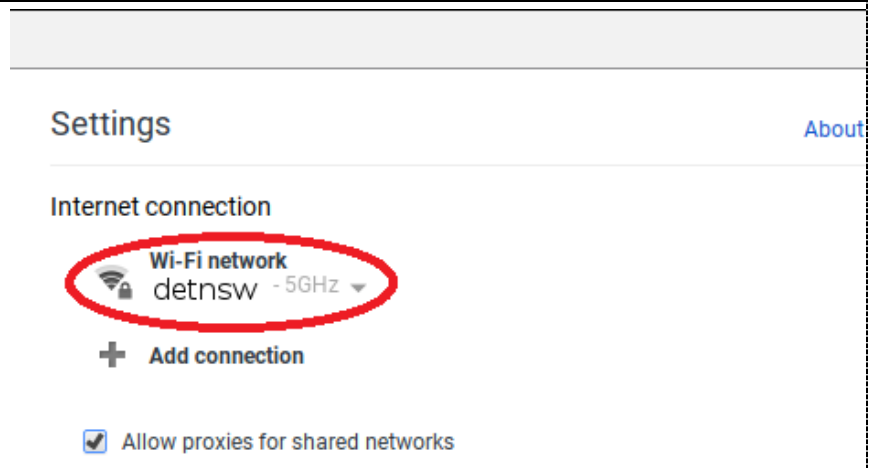

## Chromebook devices

Click the panel at the bottom-right corner of your Chrome OS desktop and select **Settings**.

Or click menu > **Settings** in a Chrome browser window.

Click **Wi-Fi network detnsw**

Click **Proxy**.

Click **Automatic proxy configuration**.

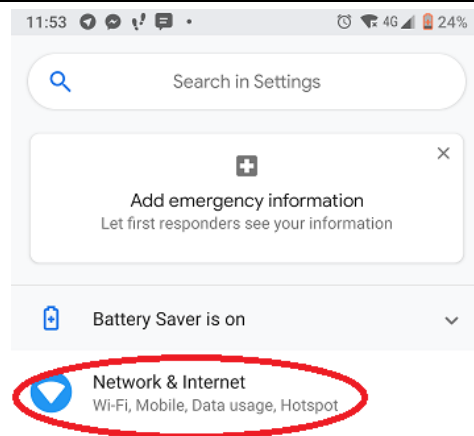

Click the **Close** button.

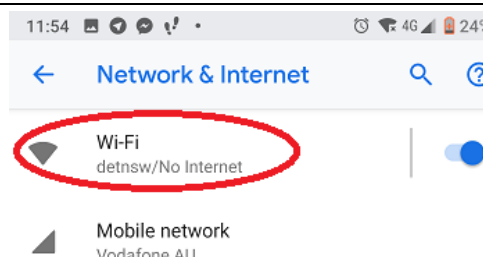

## Android devices

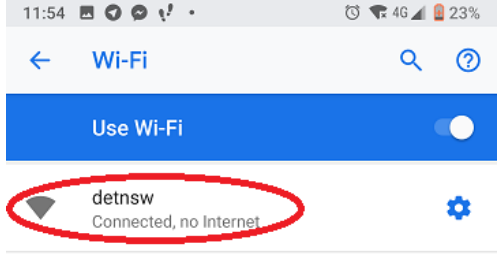

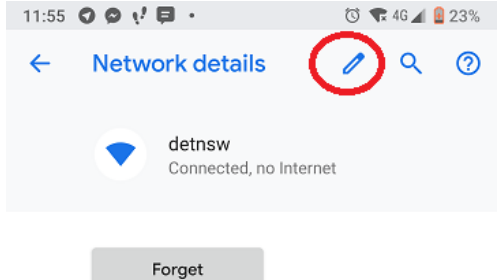

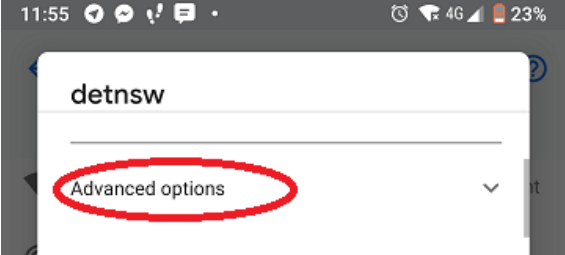

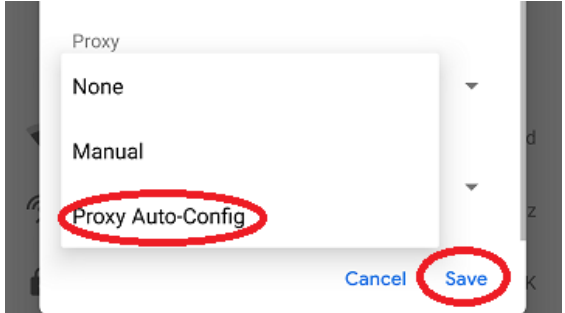

Open **Settings**.

Tap **Network and Internet**.

Tap **Wi-Fi**.

<p>Tap <b>detnsw</b></p>	
<p>Tap <b>Edit</b> icon.</p>	
<p>Scroll down to and tap <b>Advanced options</b>.</p>	
<p>Check that <b>Proxy</b> is set to <b>Proxy Auto-Config</b>.</p>	

## Android devices older than 9.0

Android devices older than Android 9.0 do not support proxy auto-configuration.

Pre-existing manual proxy configurations to proxy.det.nsw.edu.au on port 8080 will continue to work.

To benefit from the Internet at the Edge solution, follow the same steps as described above, but check that the Proxy setting is set to **None**.
